

Dear Patient,

Your doctor would like you to have some tests done. If your testing requires a referral, please obtain this from your **primary care doctor**. If your insurance plan requires pre-authorization for this testing, please call the nurses' line at (703) 478-0440 and inform us **as soon as possible**.

Please schedule all of your tests and then **call us as soon as possible** to make a follow-up appointment, so you can get your test results and discuss them with us. Unless otherwise specified by your physician, **it is required that you make a follow-up appointment**. Certainly, if your results indicate something of an urgent nature, your doctor or one of his/her staff will contact you immediately.

**PLEASE NOTE**

**Patients having an MRI or other tests in which films are involved:**

If your physician needs to review your films, please make arrangements to bring your films with you to your appointment. After your appointment, please take your films home with you or return them to the facility where your tests were conducted.

If your physician has asked to review your medical records or previous test results, please **bring** copies of all pertinent records and results with you to your next appointment.
